Subject: Draft thank you note to your R7 counterpart

Hey there, Enrique. Webinar with Exide folks went really well. R7 peeps ROCK! As FYI, see below for list of attendees.

Here's a short thank you note to your R7 counterpart should you wish to send it. I've already called them and send a note of my own to the team there.

Thanks!

Dear

My staff let me know that today's webinar re the Omaha site with your team went very well. I understand we had over 40 participants, many from the Exide Advisory Group and some key members of DTSC's team along with members of the public who are on the interest list.

Your team, Gene Gunn, Steve Sanders, Steve Kemp, Don Bahnke, and Liz Hagenmaier did an outstanding job fielding some detailed questions from AG members, including their technical advisor. Frank observations and willingness to share expertise and information are always helpful in this type of situation. DTSC staff have also let us know it was well received and much appreciated.

Again, thank you and if we can ever return the favor, let us know.

LIST OF ATTENDEES (just FYI for you Enrique, not for the note ;)
